

The registration of your pet's new 24PetWatch microchip will be completed in the 24PetWatch database by shelter staff. This will allow for all pet owner information to be stored for life.

24PetWatch is dedicated to the safe return of your pet, and in order to do this they ask that you keep your account information current by notifying them immediately with any changes.

## What is the 24PetWatch microchip and how does it work?

You made a wise decision in having your pet implanted with a 24PetWatch microchip. In the event that your pet becomes lost, your pet can be identified and reunited with you quickly and safely.

The 24PetWatch microchip is a tiny chip, the size of a grain of rice. It is permanently implanted in your pet to ensure that it can be identified quickly. Each chip has a unique identification number that links your pet to the information you provided today, increasing the likelihood of a quick and safe return.

The chip is not a GPS device, rather it is powered by a scanner which sends a signal to the chip and then reads the unique identification number stored on it. When a veterinarian, or animal welfare group finds a lost or missing pet, they use the scanner to read the pet's chip. They then contact 24PetWatch Lost Pet Recovery Service. Once reached, someone from the 24PetWatch team will contact the pet owner as provided on the registration and reunite them with their pet. The 24PetWatch call center is open 24 hours a day, 7 days a week to ensure not a moment is wasted reuniting you with your lost pet.

## Keep your pet safe:

- Keep your personal information and alternate contact information up to date in the 24PetWatch Microchip database. Notify 24PetWatch immediately of any changes to your contact information.
- Always keep a collar on your pet and be sure your 24PetWatch collar tag is securely attached.

24PetWatch is dedicated to your pet's safety. With a comprehensive line of exclusive products and services designed to enhance and protect your pet's life, 24PetWatch gives you and your pet access to health, happiness and peace of mind.
